

Resumption of Surgical Services

In the midst of the COVID-19 crisis, we know our hospital clients are strategizing to resume and maximize surgical services capacity as soon as possible. Qualivis can quickly help supplement OR staff through our streamlined process allowing for immediate impact.

We'll work with you to proactively plan service resumption and offer creative staffing solutions designed specifically for the post-crisis environment. Qualivis' approach can help you:

- ✓ Quickly recover deferred revenue
- ✓ Achieve financial objectives
- ✓ Prevent market share leakage
- ✓ Maintain physician relations
- ✓ Increase scheduling capacity

The Pod Approach

Qualivis' unique pod approach will streamline the resumption of your surgical services. Clinicians orient the same day, start the same day and work flexible contracts to meet fluctuations in patient demand.

Our accountable staffing partners have access to millions of clinicians, ensuring we can staff all of your surgical services quickly and efficiently including:

Nursing

Allied and
Surgical Support

Locum Tenens

Ancillary Services

We know you're looking forward to getting back to normal. Let us help you make the transition easy. For more information visit qualivis.com or email info@qualivis.com.
