WE HAVE YOUR BACK

A HOSPITAL WORKER SAFETY COLLABORATIVE

An Initiative of the Florida Hospital Association

Mission to Care. Vision to Lead.

Hospital leaders in Florida are making quality and safety a priority – and that leadership is resulting in significant year after year reductions in harm and improved patient outcomes.

Our hospital leaders understand that hospitals can be dangerous workplaces. Hospital environments are unique and the daily work involves risks that are inherent to caring for the sick.

- Patient lifting
- Exposure to communicable disease
- Use of sharp medical devices
- Violence related injury that can occur when caring for at-risk populations, such as patients with dementia or serious psychiatric illness

Making workforce safety a priority helps to cultivate a safe work environment, which is proven to result in better patient care and a secure, more rewarding work experience.

PLEDGE TO JOIN THE

We Have Your Back Safety Collaborative

Member hospitals will be the gold standard in hospital worker safety - preventing injuries, saving money and leading the nation in innovative, healthy solutions for our valued workforce.

The “We Have Your Back” initiative will include five focus areas:

- Preventing physical injuries
- Needlestick and communicable disease prevention
- Bolstering hospital security
- Finding solutions to reduce work stress, fatigue, and burnout
- Caring for our caregivers, including injury support and reintegration into the workforce

Hospital Worker Safety Collaborative Pledge to Participate

My Hospital/System pledges to make workforce safety a priority and participate in the FHA “We Have Your Back” Hospital Worker Safety Collaborative that will focus on:

- Preventing physical injuries, needlesticks, communicable disease transmission and workplace violence.
- Identifying solutions to reduce work stress, fatigue and burnout.
- Providing optimal care to our caregivers who sustain work-related injuries.
